October has been a very busy month. We have ordered a majority of our equipment for the ARC grant. The purchases have been placed, and now we are just waiting for everything to arrive. We received one large purchase of peripherals. Within this order were things like Barcode scanners, receipt printers, and power supplies. It is going to be a long process because we are going through each item, and are going to inventory everything. We want to make sure that we track anything and everything for the ARC grant. These next couple of months will be very busy and hectic as we prepare all the new equipment for deployment. All of this equipment will be worlds better than what we currently have. I have noticed lately, a lot of our equipment is having trouble, as it is reaching the end of life. I am looking forward to the challenge and implementation of all the new equipment. I know our Patrons, and the staff will be very happy with the new upgrades.
