

Enrichment Services Report – January 2021

We are providing the following programs to the community:

- Virtual Storytimes on YouTube and Facebook
- Storytime-to-Go kits at all of the branches
- YA Listeners on Facebook and SoundCloud
- Virtual YA Book Club on Facebook
- Curbside After School Meal Program at all of the branches
- Craft Kits-to-Go at the West Union Library

This month, our new programmer at the West Union Library. Congrats to Donelle Lacy! She was promoted from part-time library clerk. The programmers and Julia have been brainstorming ideas for future programming, such as Appointment Storytimes and Summer Reading Program events. Julia finished the application for the Summer Reading Program LSTA grant. We will hear something from the LSTA coordinator in approximately a month. We are looking forward to working with Ryen Shiveley from Family Traditions Animal Adventures. This program will be the kickoff event at our branches for SRP. Each branch will have different animals that patrons can interact with including llamas, pigs, lemurs, kangaroos, etc. Health and safety guidelines will be enforced by the library staff. We will create registration sheets and health and safety signs. We will promote the event with these ideas in mind. In addition, some of the buildings have undergone construction for the new glass rooms. We are excited to utilize these spaces for future services and programs.
