

Outreach Services Report – January 2021

Youth Outreach Specialist – Deborah Cumberledge

Currently, there are 976 children in the Adams County Imagination Library program. Of that number, 20 children graduated this month and 40 children received a welcome book. I also processed 38 registrations for the program.

This month a preschool teacher at Peebles Elementary contacted me about the possibility of a library partnership with the preschool classes. Since I can't visit the classrooms due to Covid restrictions, she was wondering if I could drop off books every month that support their monthly themes as well as a craft/ activity. I thought this was a wonderful idea. My first delivery starts in February. I've also set up the same program with North Adams Elementary preschool classes and am in contact with West Union Elementary preschool teachers about possibly doing the program there.

Adult Outreach Specialist – Destiny Vanderpool

A patron said that she has gone to the library since she was in seventh grade, she turned 91 this past month. She said she is continually thankful for the services the library provides her and the reason she stays so healthy is because she reads. I really enjoy getting to provide services for her. Everything has gone well this month.
