

Outreach Services Report – April 2021

Youth Outreach Specialist – Deborah Cumberledge

For the month of April, there were 974 children in the Adams County Imagination Library program. Of that number, 14 children graduated, and 29 children received a welcome book. I also processed 16 registrations for the program.

The book/craft program at the preschools is continuing to go well. One preschool teacher told me that her class "loved" the craft from my last delivery.

This month the Amish schools let out for the summer, so we won't restart deliveries to them until September. However, Destiny and I are still going to stop at a couple of the Amish schools throughout the summer because there are some students who want to get books to read.

One of the Amish schools gave us a sweet thank-you note for the library's services, which all of the children signed. I've attached a picture of the letter so you can read it.

Adult Outreach Specialist – Destiny Vanderpool

This month has gone well. I have received two calls about new patrons wanting Outreach services. I plan to include them new month on deliveries. New patrons have been added at Eagle Creek and Monarch Meadows, which is exciting! We did our first delivery of discarded items to Peebles Place.
