

Outreach Services Report – May 2021

Youth Outreach Specialist – Deborah Cumberledge

This month I visited all the schools in the county and dropped off flyers about the Summer Reading Program for students as well as a short message that Julia had written about the Summer Reading Program for the principals to read when doing their morning or afternoon announcements.

I received quite a bit of positive feedback from teachers at end of the school year about the book/ craft program at the preschools. Several teachers told me how much they appreciated the books and crafts, and one teacher has already said she'd like to do the program again next school year.

Adult Outreach Specialist – Destiny Vanderpool

A patron said that she has gone to the library since she was in seventh grade, she turned 91 this past month. She said she is continually thankful for the services the library provides her and the reason she stays so healthy is because she reads. I really enjoy getting to provide services for her. Everything has gone well this month.
